Introduction 9

Chapter 1

Performance Indicators Documentation 12

What is documenting a Second-Level Indicator? 13

Why document a Second-Level Indicator? 14

What are the items of a Second-Level Indicator Data Sheet? . 18

1. Sequential number of an indicator in the system..... 19

2. Type of indicator according to quality criteria 20

3. Element of the Framework of Reference..... 21

4. Key content of the strategic or operational
element of the plan being subject to measurement 24

5. Categories of variables of the indicator. 25

6. Unit of measurement for the indicator
(in both the numerator and denominator) 25

7. Description and delimitation of the unit
of measurement of the numerator 27

8. Description and delimitation of the unit
of measurement of the denominator..... 27

9. Name of the indicator 28

10. Complexity of the indicator structure 31

11. Arithmetic or statistical criterion to read the indicator 33

12. Procedure for calculating the indicator 99

13. Initial measurement of the indicator 100

14. Intermediate measurement of the indicator 101

15. Final measurement of the indicator 102

16. A trend that should characterize the indicator 103

17. Type of consolidation for a calculated indicator 104

18. Automatic impact of an indicator with regard to another106

19. Satellite indicators for the main indicator..... 107

20. Goal and purpose of the indicator..... 112

21. Causes that can influence the behavior
of one indicator..... 117

22. Agreement of actions to manage deviations
in an indicator..... 121

23. Identification and location of the source
of information and numerical data 136

24. Current status of the source of information 142

25. Frequency of use of the indicator 143

26. Prioritization of indicators in a set of objectives from a Balance Scorecard Perspective, or a Logic Model element	144
27. Users of the indicators, by status of positions and/or Administrative Unit.....	145
28. Responsibility for preparing a Presentation Tool containing calculated indicators.....	146
29. E-mail addresses and complete name of those responsible for monitoring the indicator, goal and objective	147
30. Accountable for the goal, target or initiative	147
31. Weights of the indicator for a set of targets	148
32. Communication method for using an indicator	149
33. Level of disaggregation for the indicator.....	152
34. Performance ranges of an indicator.....	157

Chapter 2

Guidelines to Regulate the Implementation of a Performance Indicators and Measurement System....201

General Consideration	202
Scope of the measurement plan.....	203
Initial steps in the indicators system implementation.....	204
1. General guidelines for the Measurement Plan's implementation	206
2. Guidelines for writing a plan content.....	207
3. Guidelines for the Second Level Performance Indicators Documentation	208
4. Strategies focused on organizational development.....	209
5. Essentials for realizing a measurement plan.....	211

Chapter 3

Indicators to Monitor the Impacts of an Indicator and Measurement System.....213

Glossary 229

Bibliography.....237
